

What is it?

The Tool course is a short training programme that gives you the opportunity to learn how to safely use power tools and equipment.

What is involved?

This course allows you the opportunity to practise and develop skills in using hand tools and assist with making large wooden garden planters or garden bird houses. The Tool course allows you to utilise newly learned skills within other projects or to progress onto further training and voluntary sessions offered within the Acorn Woodshack.

What skills are learned?

- Using combination and impact drivers safely and correctly
- Using the orbital sander safely within the sanding booth
- Constructing planters, bird houses and shelving units
- Working effectively within a team and following specific instructions
- Following health and safety practices within the workshop
- Staining, waxing and painting various products made during the course.
